POST-CONFERENCE TOUR

Bryson City to Andrews, NC Motorcar Ride: \$60.00 per person

GSMR is home to one of the steepest rail grades in the eastern US. If you would like to experience our three mile long 5+% grade firsthand, we will be offering a Bryson City to Andrews 70 mile round trip journey by the use of antique railroad inspection motorcars. Be warned that vehicle seating will vary from a flat bench with no back support to some attached seats. Also, you will be out in the elements regardless of weather conditions. Restroom stops will be limited to one midpoint stop each way and at our turn around point. Lunch will be cooked and served trackside by a unique rail-b-que motorcar that will be part of our consist for the day. Seating is limited, so early sign up is a must. Work attire and leather boots are required.

Total Number of passengers: _____ *Total \$* _____
